

## PRESS RELEASE

### Amy cancelled

**The management of Amy Winehouse has decided today to cancel all her concerts scheduled for this year, including her main stage gig at Sziget Festival.**

'The Belgrade concert got a big publicity in the press, so we immediately asked for a statement from Amy's agency. Yesterday's answer was positive and we all hoped for a solution' – said Karoly Gerendai, Sziget festival's main organizer.

Then on 21 June Sziget Cultural Management received the following notice from the agency:

*"Amy Winehouse is withdrawing from all scheduled performances. Everyone involved wishes to do everything they can to help her return to her best and she will be given as long as it takes for this to happen."*

The Sziget organizers were aware of the possible problems when the show was booked, however the management of the singer stated that there was no need to worry. Well, this just didn't work out, as it seems.

The Sziget team is already working hard on a solution to get a new headliner. Not an easy task just 5 weeks before the event, but at least we received a promise from the agency of Amy Winehouse to give us suitable replacement options. With the festival so close, we think this has a small chance, but as always, we are doing our best. Of course we will keep all fans informed.
